- Lucky One Mall(Largest Shopping Mall)
- Hoshang Pearl Tower (Luxurious 41 story building)
- Grand Mosque Bahria (World's 3rdlargest Mosque)

WORK SCOPE

ZUM ENGINEERING is specialized in energy efficient industrial HVAC solutions and MEP execution works that are designed and execute to lower operational costs and maintain a comfortable, safe working environment for facilities in all over the Pakistan.

There is no doubt that mechanical systems today are more complex than ever and energy costs are always on the rise. For that reason, companies find it cumbersome and challenging to juggle the services of different contractors. Our goal is to eliminate the juggling act.

By combining industry knowledge and experience with an effort to identify and properly assess each client's unique circumstances and goals, we're confident we can keep your facilities running efficiently. Throughout the nation, we accomplish this through value-added services such as:

- ❖ Helping your company identify and take advantage of MEP work.
- ❖ All technological and operational recommendations on your unique system, requirements, and goals.
- ❖ Conceptualizing and arranging energy savings programs to lower utility costs.
- ❖ Providing technical support you can rely on to provide fast and efficient maintenance and repair

Installation, Commissioning, Operation & Maintenance of services
